MD SORIFUL HASAN

MERN Stack Web Developer

+8801835458727 | sorifullhasan300@gmail.com | Sylhet Bangladesh| [Portfolio](#) | [Linkedin](#) | [Github](#)

CAREER OBJECTIVE

Enthusiastic and self-motivated Junior Full Stack Web Developer skilled in the MERN stack. I have hands-on experience building real-world applications and am ready to contribute to impactful software projects as a reliable team member.

SKILLS

- Proficient in HTML,CSS,and JavaScript
- Responsive Design and Cross-Browser Compatibility
- Skilled in Node.js and Express.js for backend development
- Front-end Frameworks React.js
- Version Control Git GitHub
- Database MongoDB

PROJECTS

MediEase — Medical Camp Management System   **Live Link**   **Source Code**

- Built a role-based full-stack platform for organizers to create and manage medical camps, while participants can register, pay, and track their registrations.
- Integrated secure JWT authentication, Stripe payment gateway, admin approval workflows, and participant dashboards for camp management and feedback collection.
- Developed a modern, fully responsive UI using Tailwind CSS ,DaisyUI and Flowbite with dark mode support, dynamic animations, and real-time analytics (charts, counts).

FindIt — Lost & Found Item Recovery Platform   **Live Link**   **Source Code**

- Developed a lost & found item reporting feature allowing users to post detailed entries with image, category, date, location, and description—enhancing report accuracy and traceability.
- Designed and deployed a secure and scalable backend using MongoDB and Firebase Admin SDK, enabling efficient data storage, user authentication, and role-based access control.

Find Mate — Roommate Finder Platform   **Live Link**   **Source Code**

- Built a roommate finder platform where users can explore listings based on location, room type, and preferences to easily find compatible matches.
- Implemented posting feature with image, rent, and roommate preferences, powered by Express.js and MongoDB for efficient data management and listing operations.
